

21st Century Student Assessment Across Levels and Disciplines

Carlo Magno

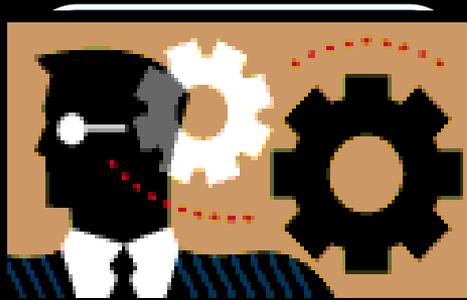

*Philippine Educational Measurement
and Evaluation Association*

www.pemee.org

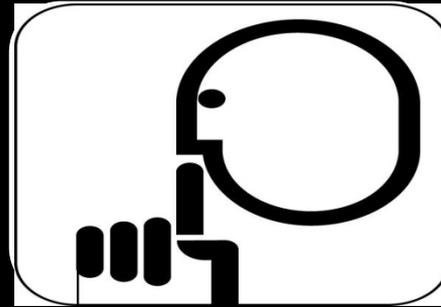

If learners are brought to the 21st century skills, we need to start thinking how assessment in the 21st century should be...

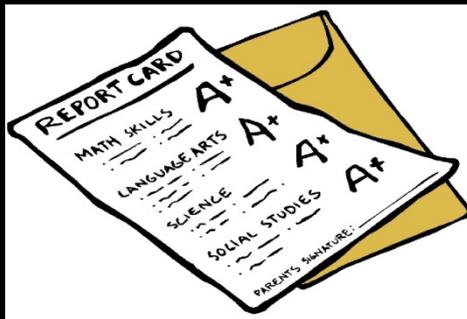

Vision

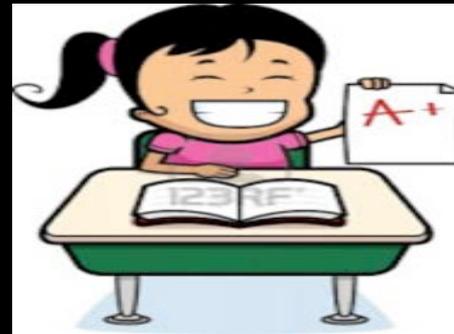

Assessment
Competencies

Assessment

Assessment Tools

Assessment
Outcomes

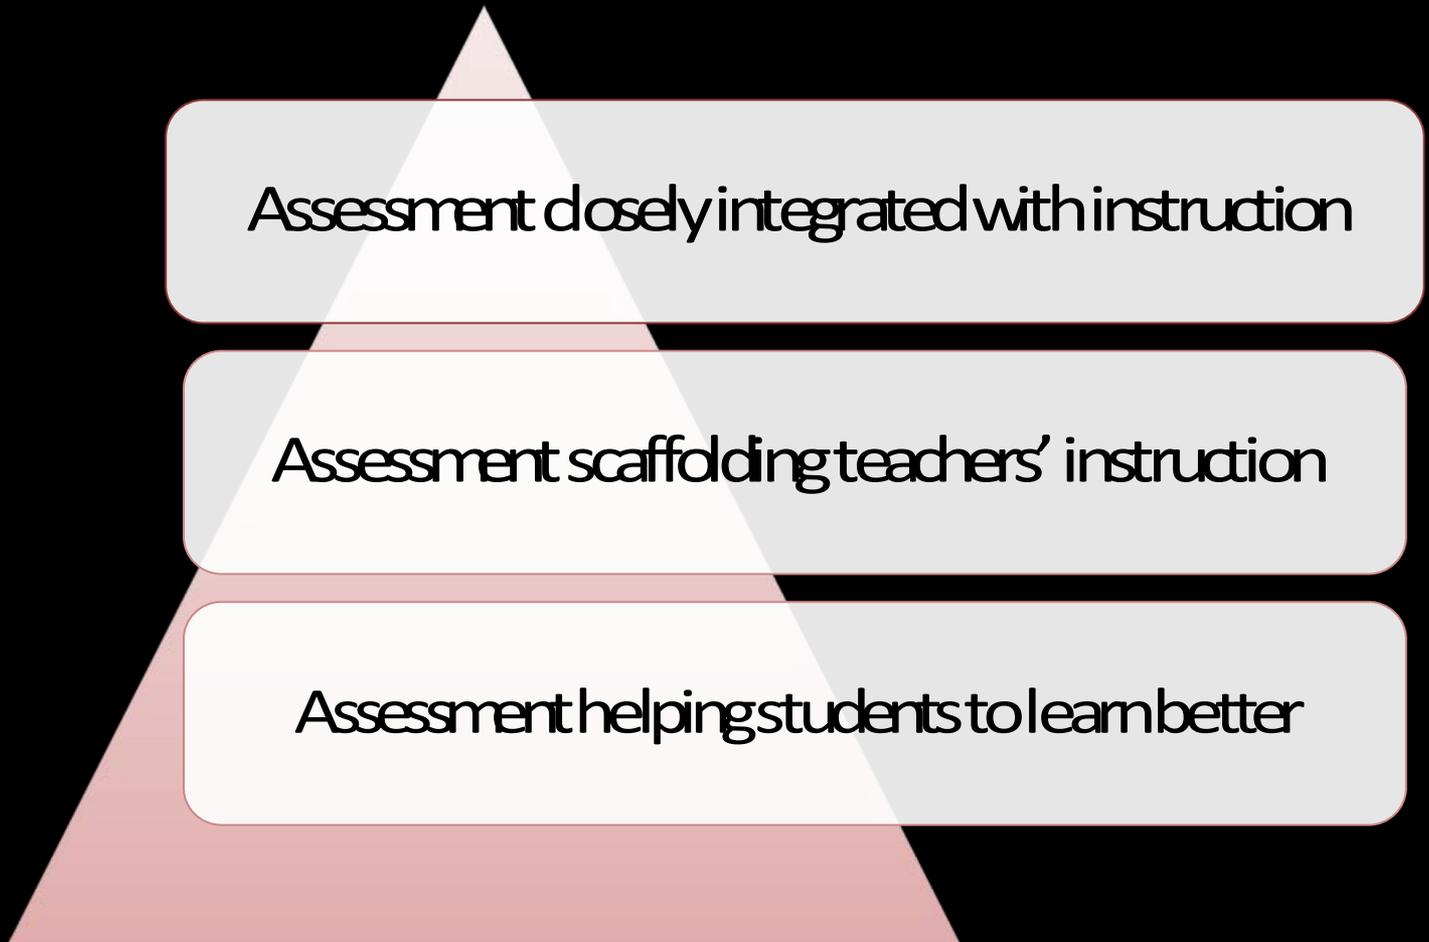

Assessment Competencies

Educational leaders who support good assessment

Teachers who are competent in assessment

Students who value assessment as part of their learning

Assessment Process

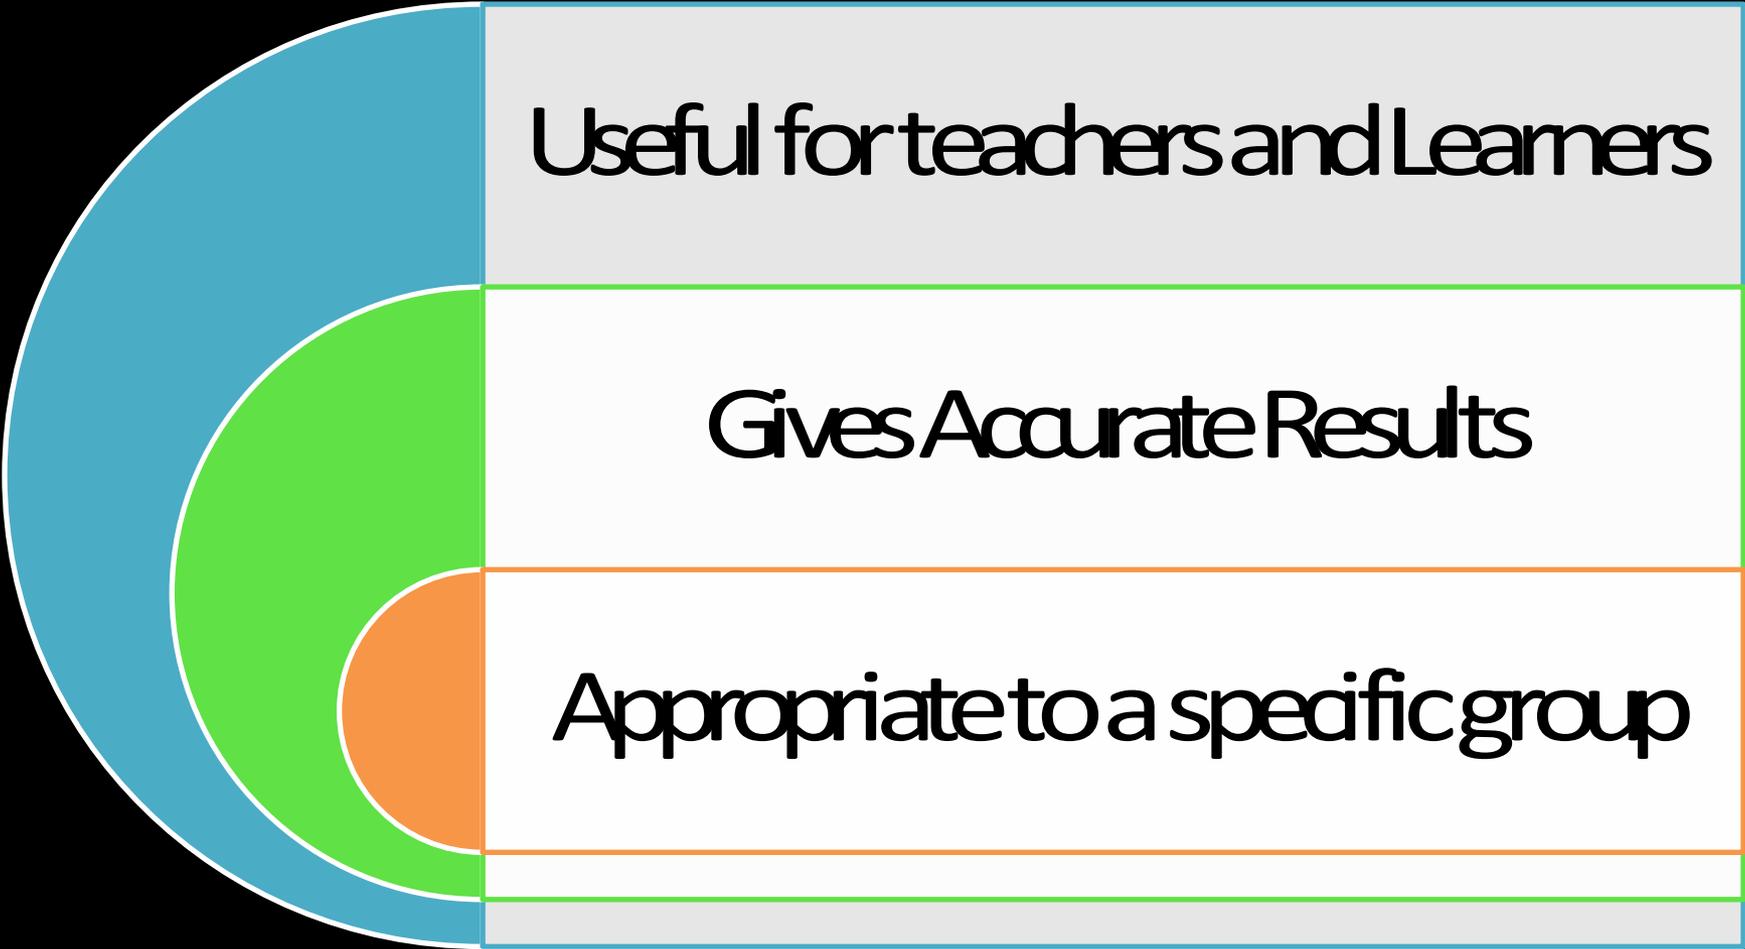

Assessment closely integrated with instruction

Assessment scaffolding teachers' instruction

Assessment helping students to learn better

Assessment Tools

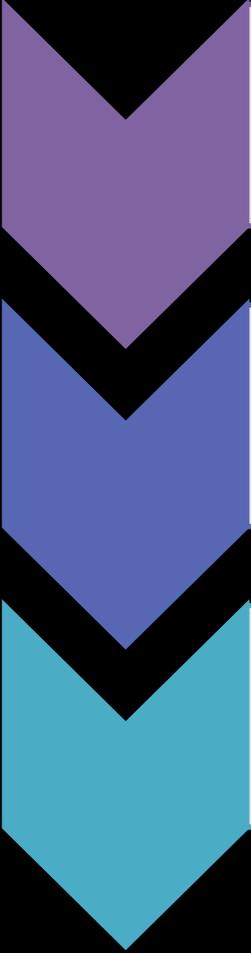

Useful for teachers and Learners

Gives Accurate Results

Appropriate to a specific group

Assessment Outcomes

- 
- Allow students to progress their learning overtime
 - Brings students evidence that they have developed the 21st century skills
 - Help make better decision for learners and organizations

If education is to bring the learner towards the 21st century skills, assessment plays an important part in that process.
