The theme of the PEMEA Student Congress is **“Social and Emotional Learning Competencies for Students.”** The student congress aims for participants to (1) describe the social and emotional learning skills they need in order to thrive in the 21st century; (2) reflect on their capacity to demonstrate the needed social and emotional learning skills in various situations; and (3) identify specific steps on how they can further develop their social and emotional learning competencies.

Our speaker for the Student Congress is **Dr. Elizabeth Randolph**, Senior Education Research Analyst of RTI International, a US-based independent non-profit research institute dedicated to improving the human condition. Her research focuses on building safe and inclusive schools and fostering social and emotional learning.
